

Message from the Artistic Director,

Theatre is an amazing medium and there is great power in that. From the inside, we, as creative artists want to create, we want to express ourselves and we really hope, time and time again, that the people coming to see our work end up sharing our creative expression and vision. It's not always the case, but when it works, it is magic! That's why we keep coming back for more.

Eric Peterson and John Gray discovered magic in 1978 as they created *Billy Bishop Goes To War* and it continues to this day. This script has the ability to take us to a place that is both playful and tragic at the same time. We felt that it was really necessary to show as many sides as possible to the reality of war from this unexpected heroes point of view. We ask a lot of questions, some being - What was it all for? Why? How much control over war do we really have? Tough questions, but necessary. We are honoured to share what we discovered with you.

We hope that you as an audience member have found some magic within the shows you've seen produced by a missing link theatre company. Starting with our first production, *A Closer Walk With Patsy Cline*, our *A Really Retro Christmas Special 2012*, Our World Premiere Production of Norm Foster's *The Great Kooshog Lake Hollis McCauley Fishing Derby*, the Brickenden Award Winning *VIGIL, A Really Retro Christmas Special 2013* and now *Billy Bishop Goes To War!*

We wish to continue to celebrate the magic of theatre. And we hope you choose to continue to join us as we endeavour to create magic at a missing link theatre company.

So, we're having a party in 2014/2015 and your invited to join us!! Our season is yet to be announced but we will know in good time. Look at our website now and then and be assured that if you've provided us with a means of contact, you will hear from us as soon as the season is announced.

Thank you for your continued support and enjoy the magic of Billy Bishop Goes To War!

Rick Kish
